

CONTACT INFORMATION	3105 Glenn L. Martin Hall Department of Mechanical Engineering University of Maryland, College Park College Park, MD 20742 USA	<i>E-mail:</i> zoisb@umd.edu http://www.terpconnect.umd.edu/~zoisb
ACADEMIC APPOINTMENTS	American University , Washington, DC USA <i>Assistant Professor</i>	Starting August 2019
EDUCATION	University of Maryland Baltimore County , Baltimore, Maryland USA Ph.D., Applied Mathematics, May 2017 <ul style="list-style-type: none"> - Dissertation Topic: “<i>Development of ICA and IVA Algorithms with Application to Medical Image Analysis</i>” - Advisor: Dr. Tülay Adalı M.S., Applied Mathematics, January 2013 Rochester Institute of Technology , Rochester, New York USA M.S., Applied and Computational Mathematics, August 2011 <ul style="list-style-type: none"> - Master Thesis: “<i>Distance Metric Learning for Medical Image Registration</i>” - Advisor: Dr. Nathan Cahill University of Patras , Patras, Greece B.S., Mathematics, September 2008 <ul style="list-style-type: none"> - Degree Thesis: “<i>Matrix Groups and Topology</i>” - Advisor: Dr. Andreas Arvanitoyeorgos 	
RESEARCH INTERESTS	Machine learning, Differential Geometry, Statistical Signal Processing, Numerical Optimization, Big Data and Social Science.	
RESEARCH EXPERIENCE	Department of Computer Science and Electrical Engineering, University of Maryland Baltimore County , Baltimore, Maryland USA <i>Visiting Assistant Professor</i> Collaboration with Dr. Tülay Adalı on grant proposals. Close research interaction with other Machine Learning for Signal Processing Laboratory (MLSP-Lab) members. The IDEAL Lab, University of Maryland, College Park , College Park, Maryland USA <i>Postdoctoral Research Associate</i> Development of machine learning models and algorithms for big data, by combining aspects from information geometry, mathematical statistics, and numerical optimization. <ul style="list-style-type: none"> - Support: Office of Naval Research, <i>Machine Learning for Energetic Materials</i>. - Written or provided technical support of research proposals submitted to: NSF, DARPA, US Army, AWS Amazon. - Mentoring undergraduate students. Machine Learning for Signal Processing Laboratory (MLSP-Lab), University of Maryland Baltimore County , Baltimore, Maryland USA <i>Research Assistant</i>	October 2018 - Present September 2017 - Present October 2013 - May 2017

Advanced Document Imaging (ADI) LLC, Rochester, New York USA

Research Assistant

November 2010 - March, 2011

Development of text segmentation algorithms for the separation between text and images in a given document.

HONORS AND AWARDS

Outstanding Graduate Researcher in the Field of Mathematics, UMBC, 2017.
Outstanding Graduate Teaching Assistant in the Field of Mathematics, UMBC, 2012.

INVITED TALKS

Machine Learning Applications in Energetics, U.S. Army Research Laboratory, Aberdeen Proving Ground, MD, April 2018.
Independent Component Analysis: Algorithms and Applications to Medical Imaging and Video Surveillance, Math/Stat Department Colloquia, American University, Washington DC, February 2017.
A New Riemannian Averaged Fixed-Point Algorithm for MGGD Parameter Estimation: Application to IVA, UMBC Graduate Student Seminar, Baltimore MD, March 2016.
Multivariate Generalized Gaussian Distribution Estimation Algorithms for Independent Vector Analysis, UMBC Graduate Student Seminar, Baltimore MD, March 2015.
Introduction to Independent Component Analysis, UMBC Graduate Student Seminar, Baltimore MD, April 2014.
Image Deblurring, Spectra and Filtering, UMBC Graduate Student Seminar, Baltimore MD, April 2013.
Medical Image Registration, UMBC Graduate Student Seminar, Baltimore MD, April 2012.
Text Segmentation, RIT Summer Mathematics Institute Teachers’ Workshop, Rochester NY, June 2011.

CONFERENCE
PRESENTATIONS

Independent Vector Analysis for Data Fusion Prior to Molecular Property Prediction with Machine Learning, Conference on Neural Information Processing Systems (NIPS) 2018, Machine Learning for Molecules and Materials, Montreal, Canada, December 2018.

MGGD Parameter Estimation on the Space of SPD Matrices, International Conference on Machine Learning (ICML), Geometry in Machine Learning (GiMLi), Stockholm International Fairs, Stockholm, Sweden, July 2018.

Independent Component Analysis Using Semi-Parametric Density Estimation via Entropy Maximization, IEEE Statistical Signal Processing Workshop, Freiburg, Germany, June 2018.

Sparsity and Independence: Balancing Two Objectives in Optimization for Source Separation, 12th Annual Machine Learning Symp., The New York Academy of Sciences, New York, March 2018.

Sparsity and Independence: Balancing Two Objectives in Optimization for Source Separation, Machine Learning for Materials Science (MLMR), College Park, USA, June 2017.

Development of ICA and IVA Algorithms with Application to Medical Image Analysis, IEEE Int. Conf. Acoust., Speech, Signal Processing (ICASSP), New Orleans, USA, March 2017.

Enhancing ICA performance by exploiting sparsity: Application to fMRI Analysis, IEEE Int. Conf. Acoust., Speech, Signal Processing (ICASSP), New Orleans, USA, March 2017.

IVA for Abandoned Object Detection: Exploiting Dependence Across Color Channels, Research Presentation, UMBC, Baltimore MD, November 2016.

An Efficient Multivariate Generalized Gaussian Distribution Estimator: Application to IVA, Conference on Information Sciences and Systems (CISS), Johns Hopkins University, Baltimore MD, March 2015.

Classification Algorithms for Medical Image Registration, Graduate Research Conference, UMBC, Baltimore MD, February 2013.

Medical Image Registration using Distance Metric Learning, RIT Graduate Research Symposium, Rochester NY, July 2011.

TEACHING
EXPERIENCE

American University, Washington, DC USA

Adjunct Professorial Lecturer

January 2018 - May 2018

Topics include concepts from probability theory, estimation, confidence intervals, hypothesis testing, and applications of MS Excel data analysis tools to economic and business data.

- STAT 204, Intro to Business Statistics, Spring 2018.

University of Maryland Baltimore County, Baltimore, Maryland USA

Guest Lecturer

September 2015 - May 2018

Discussed various topics in probability theory and numerical optimization for machine learning for graduate level courses.

- ENEE 620, Probability and Random Processes, Fall 2015, Fall 2016, Fall 2017.
- ENEE 712, Special Topics in Signal Processing, Spring 2016, Spring 2018.
- ENEE 621, Detection and Estimation Theory, Spring 2017.

Instructor

May 2012 - July 2017

- MATH 150, Precalculus, Summer 2012, Summer 2015, Summer 2017.
- MATH 151, Calculus I, Summer 2013, Summer 2014.
- MATH 155, Applied Calculus, Summer 2016.

Math Teaching Assistant

August 2011 - May 2016

Head teaching assistant. Duties included mini lectures and worksheet preparation, shared administrative responsibilities with faculty instructor, fielding of all student inquiries, provide assistance with calculus-related questions, and grade weekly quizzes for over 100 students.

Courses: Precalculus, Applied Calculus, Calculus I, II.

Math Gym Coach

August 2013 - May 2015

Participating in an active learning environment, engaging students in manipulating knowledge. Additional duties included office hours and grading problems for various levels of courses.

Courses: Precalculus, Applied Calculus, Calculus and Analytic Geometry I,II, and Multivariate Calculus.

Rochester Institute of Technology, Rochester, New York USA

Math Teaching Assistant

August 2009 - May 2011

Provide assistance with calculus-related questions and grade homework problems for over 30 students.

Courses: Project Based Calculus I, II, III, Calculus A.

STUDENT ADVISING **Undergraduate students**

Chuanmudi Qin

Mathematics

Summer 2018 - Present

Chuyi Wang

Mathematics

Fall 2018 - Present

Rohith Venkatesh

Computer Science

Fall 2018 - Present

Development of complex machine learning algorithms for the generation of features in order to detect semantically anomalous text entries from human authored articles and fake news on social media (e.g., Twitter or text documents).

Austin Kim

Computer Science

Spring - Fall 2018

Implementation of Independent Vector Analysis using Python as the primary platform.

PROFESSIONAL
SERVICE

Ph.D. students

Ph.D. committee member and dissertation reader

Darren K. Emge

UMBC, Dept. of CSEE

Spring 2018

Independent Vector Analysis for Steady State Visually Evoked Potential Data Analysis.

Research grants

NSF, (CISE) Research Initiation Initiative (CRII), (In Preparation)

AWS Machine Learning Award (Amazon), (In Preparation)

NIH: "A Unified Framework for Flexible Brain Image Analysis", (Accepted)

DARPA, (Declined)

US ARMY, (Declined)

Journal paper reviewer and conference program committee member

- Journal:

Journal of Neuroscience methods (Elsevier) (**Certificate of Reviewing**)

Neural Processing Letters (Springer)

Transactions on Signal Processing (IEEE)

Journal of Machine Learning Research

Computational and Mathematical Methods in Medicine (Hindawi)

Journal of the Franklin Institute (Elsevier)

- Conference:

IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP), 2016, 2017, 2018, 2019

The Ninth IEEE Sensor Array and Multichannel Signal Processing Workshop (SAM), 2016

Latent Variable Analysis and Signal Separation (LVA/ICA), 2015

IEEE International Workshop on Machine Learning for Signal Processing (MLSP), 2015, 2016, 2018

LEADERSHIP AND
ORGANIZATION

Mathematics and Statistics Graduate Student Association (MSGSA)

President,

January 2014 - January 2015

Preside over the MSGSA meetings, direct the activities of the MSGSA, assure student representation in faculty meetings and serve as the Deans representative for MSGSA.

Society of Industrial and Applied Mathematics (SIAM), UMBC student chapter

Vice President, SIAM

August 2012 - August 2014

Prepare meeting agendas, work closely with faculty members to develop discussion topics and organize events.

Treasurer, SIAM

August 2011 - August 2012

Manage accounts, organize annual budget.
